Hello,

I need to know who made this complaint and why did you determine that this site is in violation. This is my company's music site and does not even have any content. Should you decide to go ahead with this unconstitutional move without justification, I will transfer all my sites to another provider.

Regards
Diinele Dinaali.

I have taken this site down but unless you can justify this egregious act I am going to sue you as this was my business site where I sell products. You have prevented me from conducting business and I am going to hold you accountable for this.
